Alternative Dispute Resolution (ADR) Supports

ADR Supports

Alternative Dispute Resolution (ADR) is an informal method of settling disagreements that may arise during an IEP meeting.

ADR is designed to meet the interests of the parties involved that results in a crafted, mutually agreeable, outcome rather than living with a decision made by a third party, such as a hearing officer or judge.

Through our ADR funds, SCUSD SELPA is contracting with an Independent Special Education Facilitator to help serve our families and teams

- Resolution Session
- Informal Local Mediation

ADR Supports
